

I'm Just a Kid

I am just a kid,
I do not want to leave my home,
my country the only land I've ever known,
I must leave,
"where are my parents?" I say,
a voice responds but I don't understand,
we don't speak the same language,
wear the same clothes,
eat the same food,
I am just a kid,
why do I have this life?,
where is my old life?,
the one I loved,
I am just a kid,
I am being sent away but I don't know where,
no one understands,
I don't understand,
I have come to a place filled with tents,
they say I will sleep in one,
I don't want to,
where is my house?,
where are my family and friends?,

I was just a kid.
